• ENGLAND •

SPECIFICATION DATA (SAMPLE)

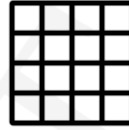

Product: Feature Wall Panel 20mm

FRESHWATER &
SALTWATER PEARL

Tesserae Size: 20mm
x 20mm

Max Size: 120cm x
240cm

Backing: Aluminium/
Magnesium Board/
PVC Foam

Weight per M² 5kg

Tolerances:
+5% / -5%

Heat Tolerance:
80°C

Water Absorption
Resistant

Thermal Shock
Resistant

Frost Absorption
Resistant

Chemical resistant

5 Year Warranty

Sustainably Sourced

Construction:- Natural pearl from freshwater shell, cut into individual tesserae of approximately 35mm x 33mm x 2mm*, polished and fixed to an aluminum honeycomb backing. Surface finishing process is polished, and resin coated, resulting in a smooth surface. Panels can be constructed to individual project dimensions.

The aluminum honeycomb backing is corrosion resistant, waterproof and fire resistant and maybe cut onsite for ease of installation.

Colour:- The colour within each individual tesserae is a natural colour and some deviation from samples may occur as with naturally produced products.

Data sheet ref:- SIM/FW/15/03A
