• ENGLAND •

SPECIFICATION DATA (SAMPLE)

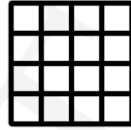

Product: Bianco 25

FRESHWATER PEARL

Tesserae Size: 25mm x 25mm 2mm

Sheet size: 318mm x 318mm

Mesh backed or Paper Faced

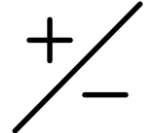

Sheets per M²: 10

Tesserae per sheet: 144

Weight per M² 4.16kg

Tolerances: +5% / -5%

Chemical resistant

Water Absorption Resistant

Thermal Shock Resistant

Frost Absorption Resistant

5 Year Warranty

Sustainably Sourced

Construction:- Natural pearl from freshwater shell, cut into individual tesserae of approximately 25mm x 25mm x 2mm*. Finishing process is naturalised, resulting in rounded corners on each tesserae and deflection on edge cuts. *The naturalised finishing results in the dimensions of each tesserae varying within the specified allowed tolerances. Grout joint 2.0mm with allowance for naturalising of the tesserae. All tesserae are fully bonded and affixed to a synthetic mesh on the rear of the tesserae or affixed to paper applied to the surface of the tesserae. Natural deflection in the surface of the tesserae are on occasion present.

Colour:- The colour within each individual tesserae is natural and some deviation from samples may occur as with naturally produced products.

Data sheet ref:- SIM/FW/15/03A
