Mosaic Tiles

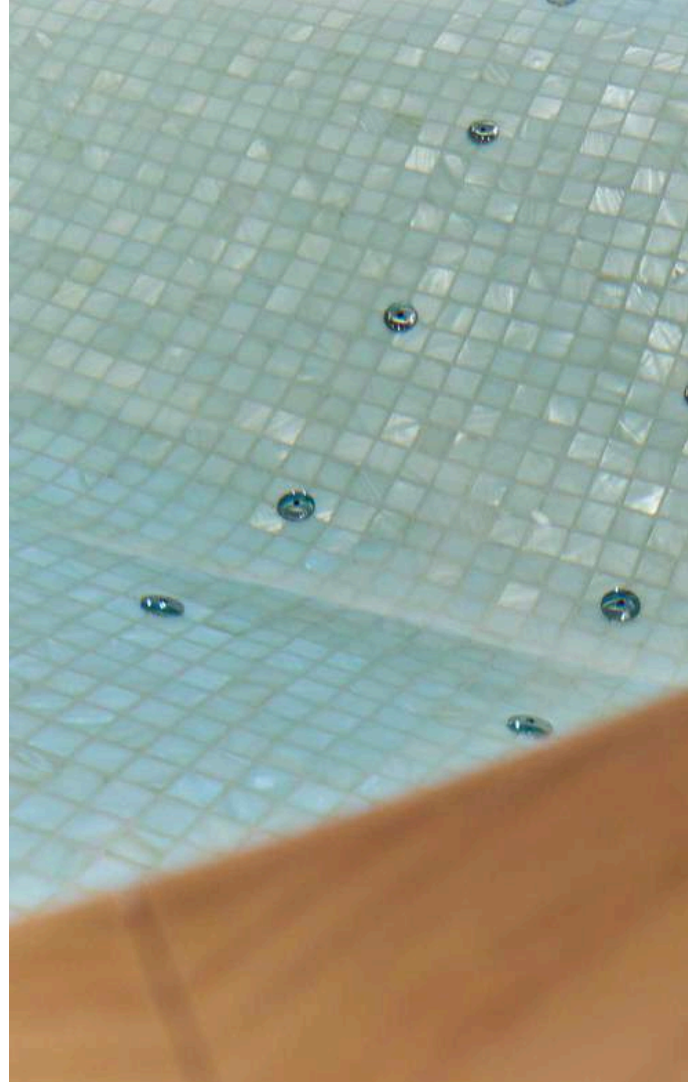

A UNIQUE SHIMMER

A Natural Choice for Swimming Pools

Siminetti mother of pearl mosaic tiles are made from the finest freshwater or saltwater shells sourced sustainably. It makes them naturally ideal for use in wet environments such as Swimming Pools or Jacuzzis.

Provides a Unique Shimmer

Mother of Pearl is a very unique and luxurious material perfect for the most exclusive residential, commercial, or hotel projects. The tiles' natural iridescence will make any pool glisten under the sunlight, if it is an outdoor pool, or under interior lights if it is an indoor pool.

THE PERFECT BLUE COLOUR

Achieve the Perfect Blue Colour

If you want to create a blue looking swimming pool, using our 'Bianco' mosaic tiles will allow you to achieve the perfect blue. It is the refraction of light through the water that makes the water look blue and the white pearlescent background of our tiles ensures a natural azure looking pool.

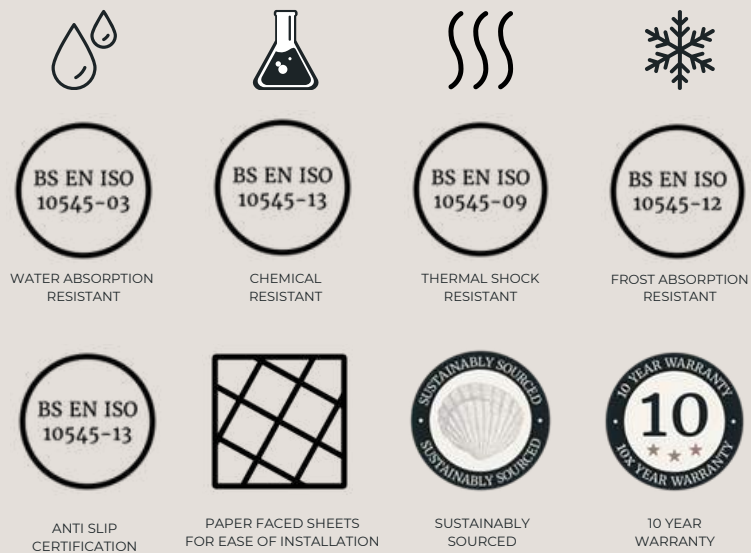

Anti Slip + Chemical Resistant

Siminetti mosaics are anti-slip and we have anti-slip certification for use within swimming pools. They are also chemical resistant and are certified for use in chlorine swimming pools or saltwater swimming pools.

FREQUENT QUESTIONS

How do you clean the mosaics?

An automatic pool cleaner or pool brush is perfect for cleaning the mosaics.

Can the mosaics be used for external and internal pools?

Yes, they are suitable for both locations.

Do you supply paper faced mosaic sheets for swimming pools?

Yes, we supply and recommend paper faced sheets for swimming pools.

Do you need special adhesives and grouts for swimming pools?

No, standard products are suitable although we recommend an epoxy or high grade grout to ensure a perfect, long lasting result.
